# ADJUVANT OOPHORECTOMY AND TAMOXIFEN STUDY NEWS

**January 2010**

**CONGRATULATIONS TO EVERYONE!  
WE HAVE COMPLETED ACCRUAL**

**Thanks to all of you, we have reached our accrual goal for this study. A total of 743 patients were enrolled.**

**Even though enrollment is completed, it is very important to continue with consistent patient follow up every 3-4 months. Also, please keep up with entering all patient follow-up, recurrence and death data online.**

**Special thanks to Philippine General Hospital for accruing the most patients! Not only did they enroll 38% of the total number of patients, they worked diligently as a team to assure quality patient care and patient data.**

*PGH team hard at work during October site visit*
